President's Message

On the Move

The past month has been a whirlwind at ACCJC with Fall Season Visits conducted by our amazing staff and volunteers, the weeklong Commission Development Workshop, and trips by the Vice Presidents to colleges around our region to support our institutions' work in continuous quality improvement. Alongside those activities, we have held onsite and virtual listening sessions to gather stakeholder input on the proposed 2024 Standards. The feedback has already led to revisions, and a 'third' draft will be presented to the Commission in January for a first official public reading. We anticipate a 'fourth' set of revisions and a final reading at the June Commission meeting, followed by a recommended vote for adoption. Thank you to the 85 volunteers who helped craft the revised Standards, and to the hundreds of people who have commented online or in person, and to the hundreds more who have attended our onsite and virtual listening sessions.

Additionally, I am very pleased to share with you *ACCJC On The Move*, a new microsite that will present stories of student success and institutional transformation at ACCJC member institutions. Over the past four months, I have begun connecting with representatives from across the region and visiting ACCJC member institutions and district offices. My goal over the next couple of years is to visit each of our 136 institutions and to share one or two impactful initiatives of which the colleges are proud. My hope is that this will inspire others and bring awareness to the importance of two-year colleges in our communities and to our students. I would like to thank all of those who have hosted me thus far, and look forward to continued travels and connections as I engage in this initiative.

ACCJC On The Move

Stories of Student Success and Institutional Transformation

The story of an institution is the story of the people, places, and communities that serve its students. Conversations about student success often focus solely on graduation rates or other benchmark data that can obscure the true impact that institutions, programs, and people have on the human beings served. *ACCJC On The Move* is about our journey to understand the distinct missions of the 136 institutions ACCJC serves, and the promising impactful practices changing lives inside and outside the classroom. For our launch, ACCJC is proud to feature articles on Berkeley City College, Diablo Valley College, East Los Angeles College, and Hawai'i Community College. Commission Announcements and Updates

ACCJC Standards Review – Continued Refinement and Moving Toward First Read

The 2024 Standards Review is underway, and the first Town Hall took place in Southern California at North Orange County Community College District on September 19th. Feedback from the listening session and the online comment portal focused on the streamlining of process and the elimination of redundancies, along with specific comments about the need for greater inclusion of student support services (particularly libraries) in the Standards and the evidence checklists. ACCJC Staff and the Standards Review Leadership Team appreciated the comments and issued a second draft version. Since then we have hosted four additional town halls and value the dialogue and feedback. The Standards Review Leadership Team looks forward to continued refinement as it move towards presenting the draft for first read at the January 2023 Commission meeting. If you have not already done so, please consider submitting a comment or attending one of the remaining town halls on November 15th. Complete information is available on the [Standards Review website](#).

Advocacy in Action

ACCJC is a student-centered accreditor, where students are the grounding point for every ACCJC Standard. As the only institutional accreditor solely committed to the community and junior college mission, ACCJC has a unique opportunity to help make sure this mission is respected and honored at the national level. We work with partner agencies to leverage our influence and advocate for the success of all students. Please take a look at recent efforts, including President Powell's trip to Capitol Hill and meeting with the U.S. Department of Education. [Read more...](#)
