

American Samoa Community College

SPRING 2011 FACT SHEET

American Samoa Community College
SPRING 2011 Fact Sheet

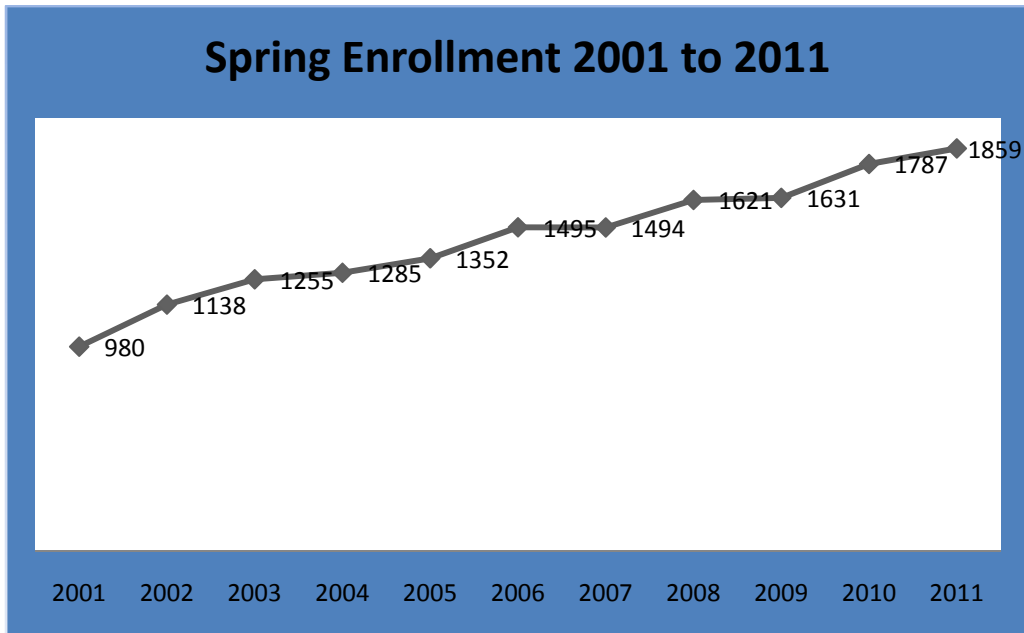

The Institutional Effectiveness (IE) Division of ASCC is responsible for the collection, dissemination, analysis, and interpretation of institutional data. Each year the division publishes a Fact Book of institutional information covering the current year's facts and a comparison of trends within the past 5 years. It was decided as an annual goal (2010 – 2011) for IE to disseminate institutional data that was readily available and up-to-date for use by all stakeholders each semester. In the Fall of 2010 the first ASCC Data Fact Sheet was distributed to all faculty and staff through the ASCC webmail. The Spring 2011 Fact Sheet is the second of a series to be published each semester for current, accessible, and up-to-date information about ASCC.

Information featured in the Fact sheets are collected from the only sources IE has access to which we consistently collect every semester. We continue to work with other divisions and departments to gain access to information which stakeholders have requested as well as information we believe will accurately depict the institution's performance. If you have any questions about the validity or accuracy of the information contained within, you may contact the IE Division at 699-7831 with your inquiries.

We continue to welcome your input as we continue to better our services in providing you with facts about ASCC.

Rosevonne M. Pato
Director of Institutional Effectiveness
