Device Registration Form - STUDENT

ASCC students are provided with the option to connect through the student wireless services with one (1) personal wireless devices, limited to laptop, tablet or smartphone, upon approval and registration of Device Equipment with the MIS Office. To register device, please complete form and submit to MIS with your device.

In order to use the ASCC Student Wireless services, a student MUST:

- have valid ASCC Student domain login,
- have a valid ASCC (amsamoa.edu) Email,
- provide wireless device that has Antivirus software installed, with current definitions. Go to <https://amsamoa.edu/techsupport.html> for recommended Antivirus software and free download link,
- submit completed device registration form with device to MIS.

Once your device is registered, you will receive an email confirming that you have access to Student WiFi. Device registration will expire and require renewal either at the end of each semester, if student requests to cancel or update registration, if student withdraws from ASCC, or at the end of the subscription period for the Antivirus software, whichever of these events comes first. If you have any questions, please feel free to call MIS at Ext. 3402 or email us at support@amsamoa.edu.
